

AWAS Delivers First of Five Planned 737-800s to GOL

Delivery is part of AWAS' fleet solution helping major Brazilian airline with expansion and fleet optimization

Dublin, 2 June 2011

Dublin based aircraft lessor, AWAS, announced today that it delivered a Boeing 737-800 passenger aircraft to GOL, the successful Brazilian-based low-cost airline. This is the first of five planned deliveries to GOL through early 2013. In March of this year GOL and AWAS entered into a purchase and lease back agreement for 5 Boeing 737-800s that the carrier had previously ordered directly from the manufacturer.

“The delivery of this 737-800 is very important for GOL,” said Constantino Oliveira Jr, CEO and Founder, GOL Linhas Aéreas Inteligentes SA. “This is our first aircraft featuring the Boeing Sky Interior and therefore it marks an important step for our fleet upgrade and product enhancement program. The complete solution that AWAS brought to us offered greater flexibility to move these plans ahead at the rapid pace we desired.”

“We are proud to be able to assist GOL with their well-planned expansion and optimization program.” said Ray Sisson, President & CEO, AWAS. “We look forward to helping them achieve their business goals for many years to come.”
