

AWAS to Lease Two Airbus A320 Aircraft to Air Guilin

Leading lessor welcomes new customer and expands its Chinese customer-base

Dublin, 14 July 2017

AWAS and Air Guilin today announced the completion of lease agreements for two Airbus A320 aircraft. These modern, fuel efficient planes will be delivered in 2018 and are part of a direct order AWAS has with Airbus. Both aircraft will come equipped with CFM 56-5B4/3 PIP engines.

This latest addition to the Air Guilin A320 family fleet will assist the carrier as it looks to capitalise on China's increasing domestic demand for leisure and business air travel. Air Guilin currently operates Airbus A319 and A320 airplanes and expects to significantly increase their fleet size by the end of 2018.

AWAS is pleased to welcome on board one of China's newest airlines and we look forward to growing our relationship as Air Guilin develops its ambitious growth strategy.

*** ENDS***
